**To**: Honorable Mayor and City Councilors

From: Zoe Monahan, City Manager

**Issue**: Approval of Replacement and Repair of the Laurie Lane Waterline

# **Background and Information**

Laurie Lane is currently served by an aging and shallow water line as described in the attached memo from Stephen Sagmiller, Public Works Director. This line has undergone multiple repairs over the last two (2) years due to the age, depth, and composition of the service lines.

Staff followed the Intermediate Procurement Process (OAR 137-049-0106) to solicit quotes for this project. The quotes ranged from \$37,950 - \$73,880. Staff has recommended contracting with Leo's Excavation for the replacement and repair of the water main and service lines on Laurie Lane and suggests a 10% contingency for a total project cost of \$41,745.

**City Manager Recommendation:** I recommend approval of full replacement and repair of the Laurie Lane Waterline awarding the project to Leo's Excavating.

**Relevant Council Goal:** Goal A – Develop and maintain infrastructure to improve livability and support operations and growth.

**Potential Motion to Approve:** "I move approval of replacement and repair of the Laurie Lane Waterline and awarding the project to Leo's Excavating with a budget of \$41,745."

# **Council Options:**

- 1 Approve the replacement and repair as recommended.
- 2 Approve the replacement and repair with amendments.
- 3 Take no action and direct staff to do further research or provide further options.

SUBJECT: LAURIE LANE WATER LINE REPLACEMENT

# **BACKGROUND:**

Homes on Laurie Lane are currently serviced by an aging and shallow water line. The water main in this area was installed in 1975 and the streets were cut in and improved after the water lines were installed.

### **ISSUE**

The water main in this area actually lies above street grade in many spots. During the last 2 years staff has had to make a number of repairs on the service lines to the homes due to age, depth, and composition. The failing service lines is a source for water loss and has caused negative impacts to the street serving the properties.

The Intermediate Procurement process (competitive quotes from select contractors), as provided under OAR 137-049-0106, was used to provide quotes for this project. Quotes received ranged in price from \$37,950.00 to \$73,880.00. The low bid for this project was received from Leo's Excavating at \$ 37,950.00.

Contractor Quote Leo's Excavating \$37,950.00 Haworth Inc. \$61,760.00 Kizer Excavating \$73,880.00

### **STAFF RECOMMENDATION:**

In order to insure continued operation and reduce water loss and cost associated with repair staff recommends replacing the existing line with new C-900 water line installed at the proper depth with new HDPE service lines.

Staff recommends contracting with Leo's Excavating for the replacement of the water main and service lines on Laurie Lane for \$37,950.00 with a contingency of 10% for a total of \$41,745.00

#### RECOMMENDED MOTION:

Move to approve the replacement and repair of the Laurie Lane water line at a cost of \$41,745.00

Troy,

No real hurry but I was wondering if you had gotten a chance to look at those drawings and put together a quote. I am trying to see if we can do this project this fiscal year or if I need to put it into my budget for July.

Thanks,

**Subject:** Staffing Update

The City is experiencing a change in staffing due to the retirement of our long time Librarian/Community Development Specialist. Debra Lien has served the City for 24 years and had a specific skill set, knowledge and history of the city which will not be easily replaced.

Additionally, as the City has grown, the needs have changed. The City has an opportunity to increase the focus on the library, community programming and communication with our community while maintaining the other essential services provided by the administrative staff.

In order to better serve our community, staff plans to modify our current staffing. The Community Services Assistant will become a full time (1.0 FTE) position and take on the planning administrative functions. The Librarian position will remain at 28 hours (0.70 FTE), and focus on library circulation, programming and communication efforts. This change will increase the focus on the library while maintaining essential city services.

Staff is in the process of revising job descriptions and evaluating pay scales. We intend to start the recruitment of the City's next Librarian in early April.
