

Property Line Adjustment - *Submittal Information*

General Information

A property line adjustment procedure is used to relocate an existing common property line between two abutting properties (*lots, parcels or tracts*), or to consolidate multiple legal lots into a single legal lot. No additional lots or parcels may be created. The number of lots after the property line adjustment may not exceed the existing number of lots prior to such adjustment. Property line adjustments can only be submitted on parcels and lots of record. A partition (*or subdivision*) is required to create an additional lot or parcel.

Review Criteria

The adjusted lots must meet the standards of Section 7.3.104 of the Dayton Municipal Code. The Property Line Adjustment may not result in any resulting lot property becoming out of conformance (*or becoming further out of conformance*) with development standards of the zoning code, and each resulting lot or parcel shall satisfy the dimensional standards of the applicable zoning district, unless a variance from these standards is approved. Any necessary variance or adjustments to Zone Code standards must be granted prior to or concurrently with the approval of a Property Line Adjustment.

THE ACTUAL PROPERTY LINE IS NOT MOVED OR MODIFIED UNTIL NEW DEED(S) TO MODIFY THE TITLE ARE RECORDED WITH THE COUNTY IN WHICH THE PROPERTY IS LOCATED (*DEED TO BE BASED ON A PLA SURVEY FILED WITH THE COUNTY SURVEYOR*).

Submittal Requirements

- One (1) copy of the Property Line Adjustment application form with signatures of all property owners. *Original signatures for all property owners must be provided.* This information must be reproduced so please print clearly using black or blue ink.
- One (1) copy of the title report for each lot or parcel involved, including copies of all recorded documents referenced in the title report.
- One (1) copy of the deed for each lot or parcel involved
- Electronic (pdf) copy plus Two (2) copies of the Preliminary Adjustment Site Plans on a maximum 11" x 17" sheet of paper, that shows all of the following:
 - Vicinity sketch showing location of the proposed PLA property.
 - Appropriate identification stating the drawings are a preliminary plans.
 - North arrow, scale (*the preferred scale is 1 inch equals 20 feet*) and date prepared.
 - Name and addresses of land owner, applicant, engineer, surveyor, planner, architect or other individuals responsible for the plan.
 - Tax Map and Tax Lot number (*and addresses*) of the subject property & surrounding properties.
 - Boundary lines and area of the subject properties, & gross area of property being adjusted.
 - Existing and proposed property lines, dimensions and resulting lot/parcel areas for proposed lots.
 - Existing structures on properties involved.
 - Existing easements and/or proposed easements on the property or affecting the property.
 - Setbacks to existing property lines and proposed property lines.
 - The location of existing streets and/or right-of-ways adjacent to the subject properties.
 - Existing improvements on the property.
- Narrative addressing all code criteria applicable to the application, including any improvements which may be required to streets, sidewalks, water, sewer or storm drain systems in order to provide service to any of the proposed adjusted lots.
- Application Fee made payable to the City of Dayton.

Application Completeness Process

The City will review an application and make a decision on completeness within 21 days of submittal. Applicants have 180 days to submit missing information on incomplete applications.

Land Use Review

Property Line Adjustments are reviewed in accordance with the Type 1 review procedures specified in Section 7.3.201 and typically takes six to eight weeks to process.

Final PLA Review & Approval

- A copy of the PLA survey completed pursuant to ORS Chapter 92 shall be submitted to the City prior to recordation of the PLA deeds (*in addition to any review required by the Count Surveyor*), to demonstrate that the final adjustment is in substantial conformance with the PLA approval.
- Building permits will not be issued, and adjusted lots may not be sold, transferred or assigned until the modified PLA deed(s) are recorded and copies submitted to the City. The applicant is responsible for all recording fees.
- Property Line Adjustments are not valid until the final modification deeds is recorded with the County.

Completion

Within one (1) year of the final decision approving the property line adjustment, the applicant shall record modified deeds. A survey record may be required pursuant to ORS Chapter 92.

TITLE 7: LAND USE AND DEVELOPMENT CODE
SECTION 7.3.1 - APPLICATION REQUIREMENTS AND REVIEW PROCEDURES

7.3.104 PROPERTY LINE ADJUSTMENTS

7.3.104.01 Area of Application

A property line adjustment application is required whenever a property boundary separating two lots or parcels is reconfigured. Property line adjustments do not create new parcels.

7.3.104.02 Validity

Property line adjustment approval is valid in perpetuity, upon recording of the new deeds.

7.3.104.03 Submittal Requirements for Preliminary Review

A. Application Process. Applications for partitions shall be submitted on forms provided by the City and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section. Notice shall be subject to the provisions in Section 7.3.204.

B. Submittal Requirements. Each application shall be accompanied by a preliminary adjustment plan drawn to scale and containing at a minimum, the following:

1. Map number and tax lot or tax account number of subject properties.
2. The boundary lines and approximate area of the subject properties in square feet and location of structures on property.
3. The approximate location of existing streets, easements or right-of-ways adjacent to, or within, the subject properties, and, existing improvements on the property.
4. The location of the property boundary after the proposed adjustment is completed.

7.3.104.04 Process for Preliminary Review

Property line adjustments shall be reviewed in accordance with the Type I review procedures specified in Section 7.3.201.

7.3.104.05 Review Criteria

Approval of a property line adjustment shall require compliance with the following:

A. After the adjustment, each parcel shall satisfy the dimensional standards of applicable zoning district, unless a variance from these standards is approved.

B. Each parcel shall meet the land division standards in Section 7.2.307.

7.3.104.06 Completion of a Property Line Adjustment

Within one year of the final decision approving the property line adjustment, the applicant shall record modified deeds. A survey record may be required pursuant to ORS Chapter 92.

TITLE 7: LAND USE AND DEVELOPMENT CODE
SECTION 7.3.2
ADMINISTRATIVE PROCEDURES

7.3.204 PUBLIC NOTICE REQUIREMENTS

7.3.204.01 Type I Action. Consistent with State statutes, written notice of a Type I decision shall be mailed to the applicant and all property owners, including county and state agencies responsible for road and highways, within 100 feet of the subject property. Written notice for a Type I Action shall include the following:
(Amended by Ordinance 589 – Effective 4/2/09)

1. Summary of the request.
2. Relevant decision criteria.
3. Findings of fact indicating how the request does or does not comply with the decision criteria.
4. Conclusionary statement indicating approval or denial of the request including (where appropriate) conditions of approval.
5. Information regarding the appeal process including who may appeal, where appeal must be submitted, fees and the appeal deadline.

7.3.204.02 Type II and Type III Actions
Written notice of any public hearing shall be mailed at least 20 days prior to the hearing date to the applicant and owners of property, including county and state agencies responsible for roads and highways, within 200 feet of the boundaries of the subject property. *(Amended by Ordinance 589 – Effective 4/2/09)*

7.3.204.03 Type IV Actions
Written notice of a hearing before the Planning Commission or City Council hearings shall be given by publication of a notice in a newspaper of general circulation in the City not less than 10 days prior to the date of the hearing before the Planning Commission and City Council.

7.3.204.04 Notice for Appeals
An appeal to either Planning Commission or City Council shall include written notice at least 10 days prior to hearing to the appellant, the applicant and any other individuals who received notice of the original decision.

7.3.204.05 Public Hearing Notice Requirements
Notice for any public hearing, including appeals, shall include the following:

- A. Explain the nature of the application and the proposed use or uses which could be authorized.
- B. Cite the applicable criteria from the Code and the plan which apply to the application at issue.
- C. Set forth the street address or other easily understood geographical reference to the subject property.
- D. State the date, time and location of the hearing.
- E. State that failure of an issue to be raised in a hearing, in person or by letter, or failure to provide sufficient detail to afford the decision maker an opportunity to respond to the issue precludes appeal to the Land Use Appeals Board of Appeals.
- F. Include the name and phone number of the City representative where additional information may be obtained.
- G. State that a copy of the application, all documents and evidence relied upon by the applicant and application criteria are available for inspection at no cost and a copy will be available at reasonable cost.
- H. State that a copy of the staff report will be available for inspection at no cost at least seven days prior to the hearing and a copy will be provided at reasonable cost.
- I. Include a general explanation of the requirements for submission of testimony and the procedure for conduct of hearing.

TITLE 7: LAND USE AND DEVELOPMENT CODE
SECTION 7.3.2
ADMINISTRATIVE PROCEDURES

7.3.202 PROCEDURES

7.3.202.01 Procedure for Type I Review

- A. Upon receipt of an application for a Type I land use action, the City staff shall review the application for completeness.
 - 1. Incomplete applications shall not be reviewed until all required information has been submitted by the applicant.
 - 2. If incomplete, the applicant shall be notified and provided additional time of up to 30 days to submit supplemental information as necessary.
- B. The application shall be deemed complete for the purposes of issuing a staff report and related timing provisions either:
 - 1. Upon receipt of the additional information to complete the application; or
 - 2. If the applicant refuses to submit the information the application shall be deemed complete for review purposes on the 31st day after the original submittal.
- C. Referrals may be sent to affected agencies such as City departments, police and fire departments, school district, utility companies, and applicable state agencies at the Manager's option. When a land use development has either direct access or creates an additional 20% average daily traffic on a county road or state highway, then a referral shall be sent to the Yamhill County Public Works Department or ODOT, as appropriate. *(Amended ORD 608 effective 10/06/11)*
- D. Within thirty (30) days of receipt of a complete application, staff shall review the application and shall make a decision based on an evaluation of the proposal and on applicable criteria as set forth in this Code.
- E. Approvals of a Type I action may be granted subject to conditions and performance agreement requirements.
- F. Notice of the decision shall comply with the provisions in Section 7.3.204.
- G. A Type I land use decision may be appealed to the Planning Commission, by either the applicant or persons receiving notice of the decision. The appeal shall be filed within 15 days from the date of the final decision, pursuant to the provisions of Section 7.3.207.

7.3.202.02 Procedures for Type II and Type III Actions

- A. Upon receipt of an application for Type II or Type III land use action, the City staff shall review the application for completeness.
 - 1. Incomplete applications shall not be scheduled for Type II or Type III review until all required information has been submitted by the applicant.
 - 2. If incomplete, the applicant shall be notified and provided additional time of up to 30 days to submit supplemental information as necessary.

- B. The application shall be deemed complete for the purposes of scheduling the hearing and all related timing provisions either:
 - 1. Upon receipt of the additional information to complete the application; or,
 - 2. If the applicant refuses to submit the information, the application shall be deemed complete for scheduling purposes only on the 31st day after the original submittal .
- C. Referrals will be sent to affected agencies such as City departments, police and fire departments, school district, utility companies, and applicable state agencies. When a land use development has either direct access or creates an additional 20% average daily traffic on a county road or state highway, then a referral shall be sent to the Yamhill County Public Works Department or ODOT, as appropriate. *(Amended by Ordinance 589 – Effective 4/2/09)*
- D. The Public Hearing shall be scheduled and notice shall be mailed to the applicant and adjacent property owners. Notice requirements shall comply with Section 7.3.204.
- E. Staff shall prepare and have available within 7 days of the scheduled hearing a written recommendation concerning the proposed action. This report shall be mailed to the applicant and available at City Hall for all interested parties.
- F. The public hearing before the Planning Commission shall comply with the provisions in Section 7.3.205.
- G. Approvals of any Type II or Type III action may be granted subject to conditions and performance agreement requirements.
- H. The applicant shall be notified, in writing, of the Planning Commission's decision or recommendation. In addition, notice of the Commission's decision or recommendation shall be mailed to individuals who request such notice at the public hearing, or, by those individuals who submitted a written request for notice prior to the public hearing.
- I. A Type II land use decision may be appealed to the City Council by either the applicant, persons receiving notice of the decision or the Manager. The appeal shall be filed within 15 days from the date of the decision, pursuant to the provisions of Section 7.3.207. Type III land use applications are automatically reviewed by the City Council. *(Amended ORD 608 effective 10/06/11)*

TITLE 7: LAND USE AND DEVELOPMENT CODE
SECTION 7.2.3 - GENERAL DEVELOPMENT STANDARDS

7.2.307 DEVELOPMENT STANDARDS FOR LAND DIVISIONS

7.2.307.01 Purpose

To provide for the orderly, safe, efficient and livable development of land within the City of Dayton.

7.2.307.02 Scope

Application. The provisions of this Section shall apply to all subdivisions and partitions within the City of Dayton.

7.2.307.03 Standards for Lots or Parcels

A. Minimum lot area. Minimum lot area shall conform to the requirements of the zoning district in which the parcel is located.

B. Access. All lots and parcels created after the effective date of this Code shall provide a minimum frontage, on an existing or proposed public street, equal to the minimum lot width required by the underlying zone. The following exceptions shall apply:

1. Residential lots or parcels may be accessed via a private street or partition access easement developed in accordance with the provisions of Section 7.2.302 when the City finds that public street is not necessary to provide for the future development of adjoining property.
2. Commercial or Industrial uses located in a campus or park-like development may be accessed via private streets when developed in accordance with Subsection 2.302.08.
3. Cul-de-sac lots shall have a minimum frontage of 25 feet.
4. Flag lots, as permitted in Subsection 2.307.03.C.
5. Access standards for streets are: *(Added by Ordinance 589 – Effective 4/2/09)*

Street Classification	Access Spacing
Arterial	150 feet (+/-20%)
Collector	75 feet
Local	25 feet

C. Flag Lots. Flag lots shall only be permitted if it is the only reasonable method by which the rear portion of a lot being unusually deep or having an unusual configuration may be accessed. If a flag-lot is permitted, the following standards shall be met:

1. The access strip shall not be less than 20 feet wide. The access strip shall be improved with a minimum 12 foot wide paved driveway.

1. The access strip shall not be included in the calculation of lot area for purposes of determining compliance with any minimum lot size provision of this Code.
 3. Flag lots located side-by-side shall share a common driveway. This requirement shall be placed in the deed record of each parcel and noted on the final plat.
- D. Through Lots. Through lots are discouraged unless essential to provide separation of residential development from major traffic arteries, adjacent non-residential activities, or to overcome specific site disadvantages. If approved, access may be limited to one street.
- E. Lot Lines. The side lines of lots, as far as practicable, shall run at right angles to the right-of-way line of the street upon which the lots face. The rear lot line shall be no less than ½ the dimension of the front lot line.
- F. Utility Easements. Utility easements shall be provided on lot areas where necessary to accommodate public utilities.

7.2.307.04 Additional Design Standards for Subdivisions

- A. Standards for Blocks. The length, width, and shape of blocks shall be designed with regard to providing adequate building sites for the use contemplated; consideration of needs for convenient access, circulation, control, and safety of street traffic including pedestrian and bicyclist; and recognition of limitations and opportunities of topography. Blocks should not exceed 600 feet in length between street lines, except blocks adjacent to arterial streets may be greater in length but not more than 1,300 feet without an accessway. Block perimeters should not exceed 1,800 feet in length. Exceptions to block length and perimeter may be granted if one or more of the following conditions exist: *(Amended by Ordinance 589 – Effective 4/2/09)*
1. Physical or topographic conditions make a street or accessway connection impracticable; *(Added Ord 589 – Effective 4/2/09)*
 2. Building or other existing development on adjacent lands physically preclude a connection now or in the future considering the potential for redevelopment; *(Added Ord 589 – Effective 4/2/09)*
 3. Where streets or accessways would violate provisions of leases, easements, covenants, restrictions or other agreements existing as of May 1, 1995 which preclude a required street or accessway connection; *(Added ORD 589 – Effective 4/2/09)*
 4. Where on side of the block is an arterial street; or *(Added ORD 589 – Effective 4/2/09)*
 5. Where an accessway exists in the block. *(Added ORD 589 – Effective 4/2/09)*
- B. Traffic Circulation. The proposed subdivision shall be laid out to provide safe, convenient, and direct vehicle, bicycle and pedestrian access to nearby residential areas, neighborhood activity centers such as schools and parks, commercial areas,

and industrial areas; and to provide traffic circulation with safe convenient and reasonably direct access. (*Amended ORD 589 – Effective 4/2/09*)

- C. **Connectivity.** To achieve the objective in B., above, the City may require the following:
1. **Stub Streets:** Where the potential exists for additional residential development on adjacent property.
 2. **Pedestrian/Bicycle Accessways:** Public accessways to provide a direct connection to cul-de-sac streets and to pass through oddly shaped or unusually long blocks.
- D. **Design Standards for Accessways.** Accessways shall meet the following design standards: (*Amended by ORD 589 – Effective 4/2/09*)
1. Connections with adjoining arterial and collector streets shall be provided if any portion of the site’s arterial or collector street frontage is over 600 feet from either a subdivision access street or other accessway. Exceptions may be granted if one or more of the following conditions exists:
 - a. Physical or topographical conditions make a street or accessway connection impracticable.
 - b. Building or other existing development on adjacent lands physically preclude a connection now or in the future considering the potential for redevelopment; or
 - c. Where streets or accessways would violate provisions of leases, easements, covenants, restrictions or other agreements existing as of May 1, 1995 which preclude a required street or accessway connection.
 2. Minimum dedicated width: 15 feet
 3. Minimum improved width: 10 feet
 4. Maximum length: 250 feet with a clear line of vision for the entire length of the accessway.
 5. When an accessway is in excess of 100 feet in length, then pedestrian scale lighting fixtures shall be provided along the accessways and lighted to a level where the accessways can be used at night.
 6. The accessway shall be designed to prohibit motor vehicle traffic.
 7. The accessway shall be maintained by a homeowners association or other mechanism acceptable to the City.
- E. **Park Requirements for Residential Subdivisions.** Subdivisions shall provide for public parks by one of the following methods:
1. **Dedication -** The dedication of park land shall be subject to the following:

- a. Area: Land shall be dedicated at an area equal to one acre per 100 potential residents. For the purposes of this section, the potential residential population shall be computed at the rate of 3.25 persons for each potential unit for single family homes and duplexes; and, 2.75 persons for each potential unit for multiple family homes.
 - b. Location: The location of any dedicated park land shall be determined by the Planning Commission, consistent with the guidelines in the Comprehensive Plan or in a Master Parks Plan adopted by the City Council.
2. Financial Contribution - If the Planning Commission determines there is no need for park land in this location, or, there is no suitable location on the subject property for a public park, the developer shall contribute toward a City park fund an amount equivalent to the amount of land that would have been required in item 1. above. The financial contribution shall be subject to the following:
- a. Appraisal Requirements: Market value shall be established by a professional land appraiser who is a member of the American Institute of Real Estate Appraisers or is certified by the State of Oregon as a certified appraiser. A date which is within 60 days of the final approval of the tentative plan shall be used for the purpose of fixing value.
 - b. Responsibility: The City shall be responsible for securing the services of a professional appraiser. The selected individual shall be acceptable to both the City and the developer.
 - c. Annexation: If the property is subject to an annexation, the appraisal shall always be determined on a date subsequent to the parcel's annexation to the City.
 - d. Payment Schedule: The sum of money established by this procedure shall be paid to the City prior to the approval and recording of the final plat.

F. Small-Scale Subdivisions *(Added by Ordinance #541, 6/03/02 - Effective 07/03/02)*

In addition to the standards contained in Section 3.2.207.04.A to E, the following standard shall apply to those subdivisions containing no more than ten (10) lots and that do not exceed 2 acres in size.

1. Lots. Lots shall comply with the dimension requirements of the underlying zone and the design provisions contained elsewhere in Section 7.2.307.
2. Facilities. All sewer, water and storm water facilities shall be designed and constructed to comply with adopted Public Works Standards.
3. Streets. All streets shall be dedicated to the public and constructed to adopted

Public Works Standards. Streets shall contain the following minimum improvements:

- a. Right-of-Way: 35 feet.
 - b. Surfacing Width: 27-feet, curb-to-curb. This width shall provide for two travel lanes at 10-feet each and a 7-foot parking lane on one side.
 - c. Curbs/Sidewalks. Curbs shall be located on both sides of the surfaced width and a sidewalk shall be required on at least one side of the street.
 - d. Cul-de-sacs. Streets designed as cul-de-sacs shall comply with standards contained in Section 7.2.302.04.
4. Design Limitations. Provisions in this section shall not apply if the proposed development has the potential to exceed ten lots or contain more than two acres.

7.2.307.05 Improvement Requirements - Partitions *(Revised Ordinance #541, 6/03/02 - Effective 07/03/02)*

During the review of partition proposals, the City shall require, as a condition of approval, the following improvements:

- A. Private Access. Where included, private driveways serving flag lots, or private streets, shall be surfaced per the requirements of this Code.
- B. Street Frontage Improvements. The following improvements shall be required:
 1. If the street frontage of the subject property is less than or equal to 250 feet, the applicant shall sign a non-remonstrance agreement with the City of Dayton. This agreement shall stipulate that the applicant or future property owner will agree to participate in right-of-way improvements. The agreement may include provisions for the following: street paving, curbing, sidewalks, water lines, storm sewer facilities and sanitary sewer facilities. The agreement shall be recorded at the County Clerk's Office at the time of the recording of the final plat.
 2. If the street frontage of the subject property exceeds 250 feet, or extends and existing dedicated right-of-way, the applicant shall improve the following:
 - a. Public streets upon which the property fronts to public standards, including: surfacing from center line to curb, installation of curbing, storm sewers, sanitary sewers, water lines and other necessary public utilities per approved master plans. Where a master plan has not been adopted, the developer shall enter into a non-remonstrance agreement consistent with item B.1., above.
 - b. Sidewalks, meeting City standards, along public street frontage.
 - c. The installation of storm sewers, sanitary sewers, water lines and other utilities necessary to serve lots accessing off of the new street.

- C. Public Facilities. Prior to recording the final partition plat, the developer shall submit engineering plans to the City for review. The plans shall address the required improvements contained in Section 7.2.301, and any conditions of approval, and shall conform with City Public Works Design Standards. The plans shall be approved prior to the recording of the final partition plat.
- D. Completion Requirements. All required improvements shall be completed prior to the issuance of any building permits for the subject property. Alternatively, improvements required under this Section may be assured through a performance bond or other instrument acceptable to the City prior to the approval of the final plat of the partition.

7.2.307.06 Improvement Requirements - Subdivisions

The following improvements shall be required for all subdivisions:

- A. Frontage Improvements. Street improvements to full City Standards shall be required for all public streets on which a proposed subdivision fronts in accordance with Section 2.302 of this Code. Such improvements shall be designed to match with existing improved surfaces for a reasonable distance beyond the frontage of the property. Additional frontage improvements shall include: sidewalks, curbing, storm sewer, sanitary sewer, water lines, other public utilities as necessary, and such other improvements as the City shall determine to be reasonably necessary to serve the development or the immediate neighborhood.
- B. Project Streets. All public or private streets within the subdivision shall be constructed as required by the provisions of Section 2.302.
- C. Monuments. Upon completion of street improvements, centerline monuments shall be established and protected in monument boxes pursuant to ORS Chapter 92.
- D. Bench Marks. Elevation bench marks shall be set at intervals established by the City Engineer. The bench marks shall consist of a cap set in a curb or other immovable structure.
- E. Surface Drainage and Storm Sewer System. Drainage facilities shall be provided within the subdivision and to connect the subdivision drainage to drainage-ways or to storm sewers outside the subdivision. Design of drainage within the subdivision shall take into account the capacity and grade necessary to maintain unrestricted flow from areas draining through the subdivision and to allow extension of the system to serve such areas.
- F. Sanitary Sewers. Sanitary sewer shall be installed to serve the subdivision and to connect the subdivision to existing mains both on and off the property being subdivided.

If the required sewer facilities will, without further sewer construction, directly serve property outside the subdivision, the Commission may recommend to the City Council construction as an assessment project with such arrangement with the subdivider as is equitable to assure financing the sub-divider's share of the construction.

The City may require that the sub-divider construct sewage lines of a size in excess of that necessary to adequately service the development in question, where such facilities are or will be necessary to serve the entire area within which the development is located when the area is ultimately developed. The City may also require that the construction take place as an assessment project with such arrangement with the sub-divider as is desirable to assure his share of the construction.

- G. **Water System.** Water lines with valves and fire hydrants serving the subdivision and connecting the subdivision to the City mains shall be installed. The design shall take into account provisions for extension beyond the subdivision to adequately grid the City system and to serve the area within which the development is located when the area is ultimately developed. However, the City will not expect the developer to pay for the extra pipe material cost of mains exceeding ten inches in size.
- H. **Sidewalks.** Sidewalks shall be installed along both sides of each public street and in any pedestrian ways within the subdivision. The City may defer sidewalk construction until the dwellings or structures fronting the sidewalk are constructed. Any required off-site sidewalks (e.g. pedestrian walkways) or sidewalks fronting public property shall not be deferred.
- I. **Street Lights.** The installation of street lights is required at locations and of a type required by City standards.
- J. **Street Signs.** The installation of street name signs and traffic control signs is required at locations determined to be appropriate by the City and shall be of a type required by City standards. Street signs shall be installed prior to obtaining building permits.
- K. **Public Works Requirements.** Facility improvements shall conform to the requirements and specifications of the Dayton Public Works Department.
- L. **Curb Cuts.** Curb cuts and driveway installations, excluding common drives, are not required of the sub-divider, but if installed, shall be according to the City standards.
- M. **Financial Requirements.** All improvements required under this Section shall be completed to City standards or assured through a performance bond or other instrument acceptable to the City Attorney, prior to the approval of the Final Plat of the subdivision.

7.2.307.07 Improvement Procedures

In addition to other requirements, improvements installed by a developer for any land division, either as a requirement of these regulations or at his own option, shall conform to the requirements of this Code and improvement standards and specifications adopted by the City, and shall be installed in accordance with the following procedure:

- A. **Plan Review.** Improvement work shall not commence until plans have been checked for adequacy and approved by the City. Plans shall be prepared in accordance with requirements of the City.
- B. **Notification.** Improvement work shall not commence until the City has been notified

in advance; and, if work has been discontinued for any reason, it shall not be resumed until the City has been notified.

- C. Inspection. Improvements shall be constructed under the inspection and to the satisfaction of the City Engineer and the Director of Public Works. The City may require changes in typical sections and details in the public interest, if unusual conditions arise during construction to warrant the change.
- D. Underground Facilities. All underground utilities, sanitary sewers, and storm drains installed in streets by the developer shall be constructed prior to the surfacing of the streets. Stubs for service connections for underground utilities and sanitary sewers shall be placed to a length eliminating the necessity for disturbing the street improvements when service connections are made.
- E. Final Engineering Plans. Upon completion of the public improvements and prior to final acceptance of the improvements by the City, the developer shall provide certified as-built drawings of all public utility improvements to the City. As-built conditions and information shall be reflected on one set of mylar based as-built drawings. The as-built drawings shall be submitted to the City Engineer by the Developer's engineer.

7.2.307.08 Land Division Design Requirements *(Added by ORD 541 – Effective 07/03/02)*

Development and improvements associated with land divisions shall comply with the applicable provisions of this Code. The following includes referenced items and applicable requirements:

- A. Street Improvements. Streets, including public streets, private streets, and private access driveways shall be improved per requirements contained in Section 7.2.302. Requirements in Section 7.2.307.04.F., shall apply to small-scale subdivisions.
- B. Street Frontage Improvements. Frontage improvements for partitions shall be subject to provisions in Section 7.2.307.05; for subdivisions, applicable street improvement provisions in Section 7.2.302 shall apply.
- C. Storm Drainage. Storm drainage improvements shall be subject to provisions in Section 7.2.304.
- D. Sanitary Sewer Facilities. Sanitary sewer facilities shall be subject to provisions in Section 7.2.305.
- E. Water Facilities. Water facility improvements shall be subject to provisions in Section 7.2.305.
- F. Utilities General. All utility improvements shall comply with adopted Department of Public Works Standards of the City of Dayton. In addition to the street, storm water, sanitary sewer and water facility provisions noted above, partitions are required to comply with the remaining improvement provisions in Section 7.2.307.05 and subdivisions with Section 7.2.307.06.
- G. Parking. The following parking provisions apply:

1. Public Streets - On-street parking on public streets shall conform to applicable right-of-way improvements contained in Section 7.2.302.
2. Private Streets - Land divisions involving private streets shall comply with parking provisions in Section 7.2.307.07.
3. Lots or Parcels - Off-street parking requirements for individual lots shall comply with provisions in Section 7.2.303.
